Salt House Social

is leading a *Double Life!*

Neighborhood Friendly Pub OR Tourist Bliss?

Intrigued? I was, as well as confused. The catchy tune to “Cheers” echoed in my head and got me to toe tapping the popular song, as I found myself unexpectedly feeling like I stepped into the classic neighborhood bar and yet everything logistically begged to differ.

I did my research and thought I had the place nailed as your usual tourist bar on Clearwater Beach. The Salt House Social is a fun favorite on Clearwater Beach’s Mandalay Avenue with excellent food, great drinks, cold beer, and a great atmosphere.

They have the bevy of 45+ TVs & a full sports bar featuring nightly live bands downstairs. Venturing upstairs I found an arcade, to the delight I am sure of many

children and those of longing for a nostalgic return to our past. You can dance the night away with their talented DJs. Absolutely everything for a hopping, fun, dynamic time for tourists visiting our slice of paradise. I was thrilled to find out they bring popular local artists like the Matt Winter Band and my cousin’s favorite, Dueling Pianos! I highly suggest you follow them on Facebook at Salt House Social and Instagram @SaltHouse.Social for updates.

Then there is their eclectic menu. They have definitely included many of the local favorites with their chef’s inventive twist like the Brisket Bomb Smash burger or the Pig and Peppers, Bacon

Wrapped Jalapenos, Stuffed with Cheddar Cream Cheese, Chipotle Raspberry Sauce. I had my eyes on Popcorn Firecracker Shrimp that paired so well with an Escape Other West Coast draft and continued my culinary journey with a bountiful Asian Rice & Veggie Bowl with Coconut Cilantro Lime Rice, Stir Fry Veggies, and Sweet Sesame Soy Glaze.

But what makes this place a

fan favorite for the local, loyal crowd that fill the bar and tables returning again and again? The “look” should have been my first clue at how Salt House Social can equally be

a local favorite and a tourist choice. The recent remodel brings an airy brightness with its architectural bright white stone throughout and the cheery bar lights up as dusk settles in, enticing you to

venture inside.

Second clue, using “Social” as an integral part of their name and mission! As I sat chatting with Allison, the Marketing Director, you could feel her passion and the entire Salt House Social team’s mission as she shared stories of loyal customers, and how important it was to create an atmosphere of warmth, comfort and community. But more than any words could ever convey I “felt” wait... no, I also “observed” the vibe they were aiming for and it was not your

encounter I observed had a genuine warmth beyond the generic customer service smile.

The entire team is awaiting your visit. If you are reading this and are checking out local places as a tourist, a snowbird or permanent resident, I think you have found the neighborhood

plastered welcome smile by the staff. The team members I observed welcome so many by name. Sometimes to their left and right as they were greeting people. The warmth was as genuine as could be as I watched a team server squat to be at eye level with the table and stayed engaged in deep conversation. Every single

hangout where it magically feels convivial, warm and friendly as well as offers all the sensational times with their vast amenities.

The world today can be overwhelming, and it is so important to feel a sense of belonging and community more than ever. Come on down to have a very exceptional experience where they will remember your name and so much more. You will be very glad you did! ■

Common Sense CONSERVATION for Clearwater & the World

Introducing OCEAN ALLIES, educators in the proper practices and correct products to use for the betterment of our environment. Our goal is to help teach and guide everyone on how to change the lifestyle of our community regarding what we buy and what we use.

Our criteria is simple. It includes everything from recycling to proper sea turtle lighting where it applies. We use custom guidance, as each business and organization is different. We like to think of it as a concierge style of guidance and information, allowing success without failure.

We will come to you, and we also have meetings that include citizens and distributors. Our hope is that each time a new product comes on the market that claims to be environmentally acceptable in some way, that it will be brought to Ocean

Allies for examination and testing. At this time there are no regulations on manufacturers for labeling, hence they can claim a product is something that it is not without fear of any fines.

Ocean Allies believes that through awareness comes change. Our customized experience will not only help the environment, it will do wonders for your bottom line, your

staff's retention and it is a PR dream.

Ocean Allies will show you how your ocean-friendly practices will have an environmentally sound impact on, not only your image and success, but our communities as well. To get involved, contact us at OceanAllies.org. ■

Sea Sea Riders' CBD Cocktail named one of AMERICA'S BEST

Sea Sea Riders created a cocktail called Blueberry Yum Yum that uses CBD oil (cannabidiol) and which *Restaurant Hospitality Magazine*, has called "one of the 10 best in America." They featured the Dunedin restaurant in the Nov. issue after putting out a call for their contest which annually identifies the most tempting U.S. libations around.

The cocktail, dreamed up by bar manager Emine, the owner's daughter, also calls for Nolet's Dry Gin, blueberry shrub, Freixenet Cordon Negro Brut, lemon juice, sugar & butterfly pea flower tea.

Keeping COOL at Nature's Food Patch!

Summer is a delight here in paradise, but even the most seasoned tourist or local has yearnings for a cool and nutritious treat to keep refreshed during the warm, glorious days of summer. Our very own Nature's Food Patch will satisfy those cravings and keep you cool and content with their plethora of thirst quenchers.

If you are a smoothie aficionado, there are some golden rules to follow that the Patch does so brilliantly. So many ice cream shops and snack bars load you up with high calorie, creamy ice cream or sugar filled yogurt and there are no healthy supplements in sight. And alas, the chief

depravity, the cardinal sin of smoothies gone wrong, some establishments add ice as a filler. I would contend that the plethora of booster options and drink combinations Nature's Food Patch offers is far more expansive than other establishments. The ultimate cardinal rule of great smoothies that The Patch abides by says it all in their sign "All Smoothies Made Without Ice!"

The selections, even the names of their smoothies, will have you craving them. JUMPSTART: organic espresso, homemade chocolate syrup, bananas, ginseng & ginkgo biloba! How about FEELING GROOVY: bananas, spirulina, ginseng, bee pollen, your choice of protein powder & apple juice? And this one... VERRRY BERRY: blueberries, strawberries,

raspberries & apple juice. You can have an all-fruit smoothie, a milk smoothie with your choice of "organic milk"; oat, soy, almond, coconut or dairy. And yogurt smoothies as well. The boosters available to add to your drink absolutely, hands down, surpass any smoothie bar I have ever visited. Seriously, there is not enough room to list them all.

Get your "frozen fix" to cool down this summer at one of The Patch's two convenient locations — Downtown Dunedin or Clearwater. If you have not visited The Patch in the past, you most

certainly will be rewarded with your discovery of why Nature's

Food Patch Market & Café is a must-stop for a refreshing beverage during our summer months. While you are there, check out everything you need for a perfect picnic treat. Try an Açai Bowl at the Dunedin location to pair with your revitalizing smoothie!

For those of you that are not familiar with the history of our local, much loved market... Nature's Food Patch was founded in 1987 by Mr. Amort. His family today continues his mission to inspire our community through a knowledge of better nutrition and to support a healthier lifestyle. Their healthy smoothies definitely live up to the legacy. "Sip back, relax and soak in the sunshine!" ■

Chic, Pre-owned DESIGNER ACCESSORIES

The Posh Vault Designer Resale Boutique appears to be on trend with how we purchase designer and luxury accessories these days. Even TV has gotten on board, advertising websites that offer exclusive, previously owned items online.

Is The Posh Vault just another retailer jumping on the band wagon peddling stylish items to the consumer at lower prices because they are gently used? Or just another consignment store in the Tampa Bay area to replace so many that went under during the pandemic?

The answer is clear. Not only do they have a web presence, they have a brick and mortar store as well. I was flabbergasted at the inventory. Then, as I was drooling over a few of the Saint Laurent gorgeous items. oh and

Prada purses, I was drawn to the reviews. It was not only people adoring the store, but time and time again extoling kudos to Rebekah.

Clearly the heart of the store is Rebekah Monzon, co-owner with her husband Miguel. I made it my mission to chat with the lovely Rebekah and discuss the reasons for the success of the fresh new shop. The reasons became very clear. Rebekah is adamant about only hav-

ing items that are in excellent condition. That includes being free from heavy edge wear or staining. This is not a policy in other shops or on popular online resale sites. Rebekah also is passionate about her own knowledge of her products in order to assure her customers they are getting authentic items at fair pricing.

Though the store has only been open for 14 months, the community following, online and local, is astounding. And credit goes to their mission of fairness and quality.

Hailing from Indiana, Rebekah holds on to her Midwest, down-to-earth personae as the foundation of her business. Know your products and become an authority so you can pass the knowledge on to your

clients. Offer affordable luxury to everyone and build community at the same time.

Now I understood all the plaudits and rave reviews as well as why clients returned again and again. Rebekah also has a strong social media presence; Instagram®, Facebook®, podcasts and more.

Luxury accessories, fair prices and a supportive atmosphere! Check it out, you will not be disappointed.

WE BRAKE *for* Manatees!

No doubt about it, manatees are the most charming ambassadors of our coastal culture, gliding through our waterways with those graceful swooshing tales, sweet little beady eyes and scruffy chins! The Florida state marine mammal, manatees can grow up to 10 feet long and weigh 1200 lbs! They spend six to eight hours a day foraging for aquatic plants to eat. While boating, you might see signs reminding you to watch out for manatees. They are protected by state and Federal law and it is illegal to harass or feed wild manatees. Pinellas County even has policies to help protect the sea grass beds and regulate development that might negatively impact their habitat. Visit PinellasCounty.org/environment/manatee for a Manatee Sighting Map. People are encouraged to call the Watch Line (727-464-4077) to report manatee sightings to help document areas frequented by these gentle giants. There are several other places in the greater Tampa Bay area listed below that provide prime manatee viewing opportunities.
